**MONEY  
THING®**

## **MAKE IT REAL**

We often use very general (and very boring!) terms to label what *should* be our biggest and most exciting financial goals. Rewriting your goals using specifics is a helpful way to boost your savings motivation.

**Activity:** Write out “your version” of each of the common goals below. The first one has been filled out as an example.

### **EMERGENCY FUND**

If I suddenly lose my job, I'll be able to maintain my current lifestyle while looking for something new. I won't feel stressed or desperate while job hunting.
